Brand New Book ***** Print on Demand *****.This report is one of a series of reports developed to describe the prevalence of disability and morbidity among current workers within these eight sectors. Survey data from the years 1997-2007 were used to describe the five aspects of worker s health, including (1) health status, (2) physical activity limitations or disability, (3) prevalent chronic conditions (cancer, hypertension, heart disease, asthma, diabetes, and severe psychological distress); (4) access to and use of health care services; and (5) health risk factors or behaviors. The report was developed as a descriptive resource to supplement ongoing research, and guide occupational health research and research-to-practice activities within industry.
