The task that the author set for himself was to furnish a book that would be comprehensive and definite, and at the same time flexible and adaptable, - one, in brief, that would give a general knowledge of the subject and also lend itself to the varying conditions under which it might be used. The subject is gradually developed, the number of new points introduced at each stage being limited. Also provision has been made for drills on all points, so that each may be mastered as it is introduced. A number of the sets appear in two divisions, designated A and B.
