Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest eBook i have read during my very own daily life and could be he best eBook for possibly.

Not illustrated. 1878 Excerpt: .including the iron rails for the western side of the main line, was carried over; and much freight, especially coffee, and many passengers were daily transported upon it; and no accident ever occurred. The locomotives were built by Baldwin A-Co., of Philadelphia. They were Moguls, and weighed 42 tons each. They tinned the curves easily, and usually took over a baggage car, an eight-wheeled American passenger car, and four or five large four-wheeled freight cars. They were limited to a slow rate of running, about five to six miles an hour; though they could have run somewhat faster, had it been desirable; but absolute safety was deemed an essential element in the management of a great and novel work among a people who were yet unaccustomed to railroads; many of whom persisted in declaring that they would never ride under the Sierra through the Big Tunnel! It may as well be stated that although a chartered company intervened between the contractors who were building the railway and the Government of Brazil, the government itself was the real party. The government guaranty of seven per cent, per annum interest, made the stock worth several per cent, above the par of gold in the British market, and it was well understood that on the completion of the railway the government would take possession and run it, which it did. The Emperor, Dom Pedro Segunda, whose name the railway bears, was not one of that class who entertained...
