

## CNC milling machining center technology and programming (CNC secondary vocational schools. technical application of professional planning materials)

Filesize: 9.08 MB

### ***Reviews***

*Thorough information! Its such a good study. Sure, it is perform, still an amazing and interesting literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.*  
*(Evie Emmerich)*

## **CNC MILLING MACHINING CENTER TECHNOLOGY AND PROGRAMMING (CNC SECONDARY VOCATIONAL SCHOOLS. TECHNICAL APPLICATION OF PROFESSIONAL PLANNING MATERIALS)**

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 212 Publisher: China Railway Pub. Date :2010-10-01 version 1. This book is a secondary vocational school employment-oriented. competency-based curriculum reform. textbook series one of the results is based on the latest R & D CNC technology. mold design and manufacturing. computer-aided design and manufacturing. and other professional training programs in CNC milling (machining centers) technology and programming. curriculum standards. and with reference to the relevant national occupational standards and the industry's professional skill specification writing of. The book consists of eight projects. of the student's cognitive. Deep step by step description of the CNC milling machine and CNC milling knowledge. focus on CNC milling. CNC machining process analysis methods and procedures for the preparation method. and a brief macro procedures for the preparation and automatic programming. Book focus on vocational skills of students and analysis of problems and problem-solving skills. most of the book cases and training projects selected from the business of engineering practice. and there is spare capacity left students to learn professional knowledge and skills development so that students Through systematic training. to CNC milling intermediate level national vocational qualifications. This book is suitable as a secondary vocational schools. professional digital technology. mold design and manufacturing expertise. computer-aided design and manufacture of professional materials. job-related industries also can be used as training materials and related workers. self-learning books. Contents: Project a CNC milling machine learning knowledge an understanding. the basic content of two CNC milling. CNC milling the main form of exercise three CNC milling machines (machining centers) and the part of the function of four components. CNC milling machine classification of five commonly used processing Center six CNC milling machine (processing center) security...
