

Poor Places, Thriving People: How the Middle East and North Africa Can Rise Above Spatial Disparities

Filesize: 8.62 MB

Reviews

These types of book is the greatest ebook readily available. I was able to comprehend every little thing using this published e pdf. I realized this pdf from my dad and i encouraged this publication to discover.

(Dr. Porter Mitchell)

POOR PLACES, THRIVING PEOPLE: HOW THE MIDDLE EAST AND NORTH AFRICA CAN RISE ABOVE SPATIAL DISPARITIES

World Bank Publications, United States, 2011. Paperback. Book Condition: New. 251 x 175 mm. Language: English . Brand New Book ***** Print on Demand *****.Geographical differences in living standards are a pressing concern for policymakers in the Middle East and North Africa (MENA). Economies of agglomeration mean that production is most efficient when concentrated in leading areas. So how can the region reduce spatial disparities in well-being without compromising growth? The solution to spatial disparities lies in matching the policy package to a lagging area s specific characteristics. Key questions include: is the lagging area problem really as serious as one thinks; is it a problem of low economic opportunity or of poor human development; are lagging area populations close enough to agglomerations to benefit from spillovers; and is there manifest private investor interest? Drawing on the World Bank s 2009 World Development Report, Reshaping Economic Geography, the book proposes 3 policy packages. First, all lagging areas can benefit from a level playing-field for development and investment in people. Geographic disparities in the policy environment are a legacy of MENA s history, and gaps in human development are a major component of spatial disparities. Smart policies for the investment environment, health, education, social transfers and urban development can therefore close spatial gaps in living standards. Second, lagging areas that are close to economic agglomeration can benefit from spillovers - provided that they are connected. MENA s expenditure priority is not necessarily long-distance primary connections, but infrastructure maintenance and short-distance connections such as rural roads and peri-urban networks. Public-private partnerships can also bring electronic connectivity to lagging areas. Third, shifting regional development policy away from spatial subsidies towards the facilitation of cluster-based growth will increase the chance of cost-effective impacts. The final chapter of the book examines the institutional prerequisites for...
