Createspace, United States, 2012. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Field Manual (FM) 3-09 is the Army s keystone doctrine for fire support. This manual is a guide to action for the employment of fire support in decisive action as a part of unified land operations. The foundation of unified land operations is built on initiative, decisive action, and mission command-linked and nested through purposeful and simultaneous execution of both combined arms maneuver and wide area security-to achieve the commander s intent and desired end state (Army Doctrine Publication (ADP) 3-0). The challenges of future armed conflict make it imperative for the Army to produce leaders and forces that exhibit a high degree of operational adaptability. Achieving the necessary level of operational adaptability requires the Army to build upon a foundation of two broad responsibilities within the framework of fullspectrum operations- Army forces conduct combined arms maneuver (CAM) to gain physical, temporal, and psychological advantages over enemy organizations. Applying an expanded understanding of combined arms, Army forces integrate the combat power resident in the Army s six warfighting functions with a wide array of related civil and military capabilities to defeat enemies and seize, retain, and exploit the initiative. Army forces conduct wide area security (WAS) to consolidate gains, stabilize environments, and ensure freedom of movement and action. This publication identifies the principles of fire support, describes the fires warfighting function in terms of its major components, functions, and required products and describes how fire support is employed in terms of the operations process. The scope of this publication is broad in its focus in order to deal with the fire support structure as a complete entity. It gives equal treatment to the diverse assets that are designated...
